Your Child's Growth: Developmental Milestones

Guidelines for Parents

Watching a young child grow is a wonderful and unique experience for a parent. Learning to sit up, walk, and talk are some of the more major developmental "milestones" your child will achieve. But your child's growth is a complex and ongoing process. Young bodies are constantly going through a number of physical and mental changes.

Although no two children develop at the same rate, they should be able to do certain things at certain ages. As a parent, you are in the best position to note your child's development, and you can use the milestones described below as guidelines.

At the ages noted, observe your child for I month. (This lets you take into account any days when your child may be acting differently because he or she is sick or upset.) Use the milestones listed for each age to see how your child is developing.

Remember a "no" answer to any of these questions does not necessarily mean that there is a problem. Every child develops at his or her own pace and may sometimes develop more slowly in certain areas than other children the same age. Keep in mind these milestones should be used only as guidelines.

Plan to talk about these guidelines with your pediatrician during your next office visit if you note the following:

- major differences between your child's development and the "milestones"
- your child does not yet do many of the things usually done at his or her age

3 Months

When your baby is lying on his back, does he move each of his arms equally well? Check "no" if your shild makes jerky or uncoordinated movements with one or both of his arms or legs, or uses only		
one arm all the time.	☐ Yes	□ No
Does your child make sounds such as gurgling, cooing, babbling, or other noises besides crying?	☐ Yes	□ No
Does your baby respond to your voice?	☐ Yes	\square No
Are your child's hands frequently open?	☐ Yes	□ No
When you hold your child in the upright position, can he support his head for more than a moment?	☐ Yes	□ No
5 Months		
Have you seen your baby play with her hands by ouching them together?	☐ Yes	□ No
Does your child turn his head to sounds that originate out of his immediate area?	☐ Yes	□ No
Has your baby rolled over from her stomach to her	□ Yes	□ No

When you hold your baby under his arms, can he bear some weight on his legs? Check "Yes" only if he tries to stand on his feet and supports some of his weight.	□ Yes	□ No
When your child is on his stomach, can he support		
his weight on outstretched hands?	\square Yes	□ No
Does your baby see small objects such as crumbs?	☐ Yes	□ No
9 Months		
When your child is playing and you come up quietly behind him, does he sometimes turn his head as though he hears you? (Loud sounds do not count.) Check "Yes" only if you have seen him respond to quiet sounds or whispers.	□ Yes	□ No
Can your child sit without support and without holding	□ 103	
up her body with her hands?	☐ Yes	□ No
Does your baby crawl or creep on her hands and knees?	☐ Yes	□ No
Does your baby hold his bottle?	☐ Yes	□ No
12 Months		
When you hide behind something or around a corner and then reappear again, does your baby look for you or eagerly plan for you to reappear?	□ Yes	□ No
Does your baby make "ma-ma" or "da-da" sounds?	☐ 163	
Check "Yes" if she makes either sound.	☐ Yes	□ No
Does your baby pull up to stand?	☐ Yes	□ No
Does your baby say at least one word?	\square Yes	□ No
Does your baby walk holding on to furniture?	\square Yes	□ No
Is your baby able to locate sounds by turning her head?	\square Yes	□ No
18 Months		
Can your child hold a regular cup or glass without help and drink from it without spilling?	☐ Yes	□ No
Can your child walk all the way across a large room without falling or wobbling from side to side?	☐ Yes	□ No
Does your child walk without support or help?	\square Yes	□ No
Does your child say at least two words?	\square Yes	□ No
Does your child take off his shoes by himself?	\square Yes	□ No
Does your child feed himself?	☐ Yes	□ No

2 Years			
Can your child say at least three specific words, other than "da-da" and "ma-ma," that mean the same thing each time they are said?	☐ Yes	□ No	
Can your child take off clothes such as pajamas (tops or bottoms) or pants? (Diapers, hats, and socks			
do not count.)	\square Yes	□ No	
Does your child run without falling?	\square Yes	□ No	
Does your child look at pictures in a picture book?	\square Yes	□ No	
Does your child tell you what she wants?	\square Yes	□ No	
Does your child repeat words others say?	\square Yes	□ No	
Does your child point to at least one named body part?	☐ Yes	□ No	
3 Years			
Can your child name at least one picture when you look at animal books together?	☐ Yes	□ No	
Can your child throw a ball overhand (not sidearm or underhand) toward your stomach or chest from a distance of 5 feet?	□ Vaa	□ Na	
	☐ Yes	□ No	
Can your child answer simple questions?	☐ Yes	□ No	
Does your child help put things away?	☐ Yes	□ No	
Can your child answer the question, "Are you a boy or girl?"	☐ Yes	□ No	
Can your child name at least one color?	☐ Yes	□ No	
4 Years			
Can your child pedal a tricycle at least 10 feet forward?	\square Yes	□ No	
Does your child play hide-and-seek, cops-and-robbers, or other games where he takes turns and follows rules?	☐ Yes	□No	
Can your child name pictures in books or magazines?	☐ Yes	□ No	
Can your child tell you what action is taking place in	- 14		
a picture?	☐ Yes	□ No	
Does your child use action words (verbs)?	☐ Yes	□ No	
Does your child play pretend games, such as with toys, dolls, animals, or even an imaginary friend?	☐ Yes	□ No	
5 Years			
Can your child button some of his clothing or his doll's clothes? (Snaps do not count.)	☐ Yes	□ No	
Does your child react well when you leave him with a friend or sitter?	☐ Yes	□ No	
Can your child name at least three colors?	\square Yes	□ No	
Can your child walk down stairs alternating her feet?	\square Yes	□ No	
Can your child jump with her feet apart (broad jump)?	☐ Yes	□ No	

Can your child point while counting at least three		
different objects?	\square Yes	\square No
Can your child name a coin correctly?	\square Yes	□ No
6 Years		
Can your child tie his shoes?	\square Yes	\square No
Can your child dress herself completely without help?	\square Yes	□ No
Can your child catch a small bouncing ball, such as a tennis ball, using only her hands? (Large balls do		
not count.)	\square Yes	\square No
Can your child copy a circle?	\square Yes	□ No
Can your child tell his age correctly?	\square Yes	\square No
Can your child repeat at least four numbers in the		
proper sequence?	\square Yes	\square No
Can your child skip with both feet?	\square Yes	□ No

As a parent, you are in the best position to note these subtle aspects of your child's behavior. These clues signal that your child's development is on schedule or that something might be wrong. A "no" answer to any of the questions may be a warning sign; make sure to bring it to your pediatrician's attention. Remember, these milestones are an aid, and not a test.

If you have any questions, plan to discuss them with your pediatrician. Pediatricians are trained to detect and treat developmental problems in children. Many problems, if detected early, can be treated by your pediatrician and successfully managed.
